

Reel Fingers - Gentle Fingers

With over 7 million patented “Gentle Fingers” in the field, we’re secure in stating we have the best designed nylon reel finger replacement available. The patented “T-bar” design allows the nylon finger to bend uniformly from point of contact to the point of attachment, thereby eliminating a weak spot where the finger could bend again and in time break off during use.

- *Eliminate broken cutterbar components that are a result of getting steel fingers into the cutterbar.
- *Eliminate reel wrap and carry over.
- *Comes complete with hardware.
- *Guaranteed for 1 year against breakage.

ORDER NO.	DESCRIPTION	STOCK	RETAIL
GF1038	The original wood bat “Gentle Finger”. This finger is designed with a protrusion to fit into the groove worn in the wood by the steel spring coil of the original finger. Comes complete with a bolt and nut for easy installation. <i>Sold 50 per box only.</i>	5016	\$1.50
GF1038A	This finger is designed for use with new wood bats or bats that have never had a steel finger mounted to them. Comes complete with a bolt and nut for easy installation. <i>Sold 50 per box only.</i>	5017	\$1.50
GF1238	This finger is designed for use on reels with “Tear Drop” shaped bats manufactured by HCC, Inc. This tine slides into a groove on the bottom of the bat and then up the back side of the bat and held in position with a screw. Comes complete with a new screw. <i>Sold 50 per box only.</i>	5011	\$1.50
GF1038LOVE	This finger is for use on Case-IH 820 & 1020 platforms built prior to 1988 that used steel bats manufactured by Love. This tine is held into position by one screw on the front side of the steel bat.	3315	\$1.90

HCC Paddle Tine for OEM Pipe Reels

The paddles six inch width lifts and feed crop that standard tines miss. By providing full crop contact, feeding into the header is positive and even. With the "Paddle," you'll reduce or eliminate the need for an air reel.

Original Spacing	Reel Width				
	18'	20'	25'	30'	36'
4.5"	40	40	50	60	N/A
6"	30	40	40	50	60

Number of paddles required per head.

This tine does not fit CFC "See Thru Pipe Reels"

Priced and packed 10 per box. We do not break boxes.
